

## **Legal Disclaimer**

**June 1<sup>st</sup>, 2020**

In compliance with the FDA/FTC regulations of the supplement industry, our products have not been evaluated or approved to diagnose, treat, cure, or prevent any disease. We are prohibited from speaking directly about specific disease conditions. Due to the extremely high volume of inquiries from our clients, it is not possible for our doctors to respond to individual health inquiries. We recommend that you refer to your healthcare provider to discuss your specific health concerns and the role of Our products in your health.

HAPIInss Brands™ uses the highest quality ingredients in our product formulations and hemp isolates in our hemp products.

Even though our products contain less than .3% THC by dry weight (Federal Legal Limit), studies have shown that ingesting Full Spectrum CBD can cause confirmed positive results when screening urine and blood specimens. Accordingly, if you are subject to any form of employment drug testing or screening, we recommend (as does the United States Armed Services) that you DO NOT take our products. Before taking our products, again we encourage you to consult with your healthcare practitioner, drug screening testing company or employer.
